

ABHINAV TRIPATHI

9621854341 | abhinavtripathi6sep@gmail.com | Allahabad | [LinkedIn](#) | [Portfolio](#) | [GitHub](#)

IT graduate specializing in Python programming, MERN stack, and AWS cloud services, with a strong foundation in C, data structures, and algorithm design. Experienced in building user-centric web applications, integrating machine learning models, and deploying scalable systems. Known for delivering innovative solutions and collaborating in dynamic teams to drive impactful results.

Education

- Bachelor of Technology in Information Technology** | Dr. A.P.J. Abdul Kalam Technical University **June 2025**
- Diploma in Computer Science and Engineering** | Board of Technical Education Uttar Pradesh **June 2022**
- Secondary School (Class 10)** | Central Board of Secondary Education **2016**

INTERNSHIP

- Techphile Technology Pvt. Ltd. – Intern** **07/2022 – 10/2022**
 - Built a responsive website using Python, Django, and JavaScript
- Acmagrade Pvt. Ltd. – Intern** **04/2024 – 06/2024**
 - Developed an e-commerce platform using PHP, HTML, and JavaScript
- Shape My Skill – Intern** **07/2024 – 09/2024**
 - Built a crypto tracker application using MERN stack with Integrated API services for live cryptocurrency data

Internship Summary:

- Completed 3 internships totaling 7+ months of hands-on development experience.

Project

- AI Proctored Smart Examination System** | Python, OpenCV, TensorFlow, React, MongoDB, Node Js
 - Developed an AI-powered proctored exam system with facial recognition for identity verification.
 - Implemented ML models to detect suspicious behavior and enhance security with real-time monitoring.
- College Website** | Python, Django
 - Built a responsive college website using Python and Django.
 - Integrated student management, event tracking, and a notice board for enhanced user engagement.
- Online Bookstore** | Python, Django
 - Developed a user-centric online bookstore using Python and Django.
 - Enabled browsing, searching, and downloading e-books for free with user authentication.
- Digital Currency Tracker** | MERN Stack (MongoDB, Express.js, React.js, Node.js)
 - Built a real-time cryptocurrency tracking application.
 - Integrated CoinGecko API to display live cryptocurrency prices and market trends.
- Spandan Arena** | React.js
 - Created a community platform for knowledge sharing and discussions.
 - Designed a user-friendly interface and real-time updates for improved engagement.

Technical Skills

- Languages & Frameworks** : PYTHON, JAVASCRIPT, PHP, DJANGO, REACT.JS, NODE.JS, C, DSA,
- Database**: MONGODB, SQL, MySQL
- Tools & Technologies** : GIT, GITHUB, AWS (EC2, S3, IAM), VS CODE

Certification

Python Essentials – Cisco **Power BI Badge** – Microsoft **Python Certification** – Accenture

Career Break – Health Recovery (July 2016 – January 2019)

Took a necessary break to recover from a severe medical condition (tuberculosis). Fully recovered and returned to academics with renewed focus and commitment, continuing education in computer science and technology.

Relevant Coursework-

Data Structures, Operating Systems, Object-Oriented Programming (Javascript), DBMS, Software Engineering
